1821	Report of the Auditors Continued	$	
	Viz.		
	Expences of the Poor	569	83
	Do Schools	509	70
	Do Militia	25	36
	Do Town charges	250	03
	Do State tax	164	00
	Do County tax	95	27
		1614	19
	They also find the demands against the Town according to the best estimation of the Selectmen and themselves to be	950	00
	Also the note of the collector for the year 1820 included in the Credit	289	87
		2854	16
	They find the amount received by Taxes and on hand in notes exclusive of Interest due on notes if collected to be	2518	45
	Leaving a balance against the Town of	335	61
	From which should however be deducted the amount to be received ag.t the heirs of Page, which will be uncertain on account of the fall in the value of real estate in the County of Strafford, and the legal and necessary expences		

of collection; the auditors have therefore left this without making any accurate estimate as the previous accounts of the Selectmen can afford the only ground on which a calculation can be made.

While we deeply regret and lament his acknowleged my conduct in certain instances we would at the same time consider his Established reputation for piety and good morals even from his youth so far as we have ben able to gather and his fidelity and acceptance in the gospel ministrey with us during seaven years, we would Consider likewise that this is the only deviation worthey of notice that has ever appeared against him and that he has humbled himself before God and man his fellow Creatures on account of it penitantly asked for giveness of both - and considering and that we our selves after his example have need also to be humble for our own transgrations in many instanes and short comings of duty in all: - under these conciderations we can freely and cordially extend our forgiveness to him as we would hope to obtain forgiveness for our selves from that infinite being whome we all have offended - and we desire still to embrace and retain him in the arms of our

Report of Committee Chosen December 14th 1807.
For Town meeting.

The committee chosen at the Town meeting held Dec.r 14th 1807 for the purpose of reporting to the said meeting
to be holden on adjournment Dec.r 28th 1807 the ways and means which in the opinion of the committee would be most most proper to adopt in order to effect a permanent union of the two religious societies in Hampton according to the second third and fourth articles in the notification

for holding said meeting do respectfully submit for the consideration of the Town the following report.

Report

The committee consider union between the two societies as exceedingly desirable, in every point of view. They have coolly deliberately considered difficulties and obstacles that are opposed to it with a determination of devising and adopting such measure as would in their opinion be most condicive to the intents & rights of the two societies In doing this they have ben obliged to pass unnoticed many difficulties of a trivial nature, which they thought, should in a spirit of reconciliation, be over looked by every individual, the more material points they have discussed adjusted in that way, which under all circumstances appeared to them to be the most eppedient, they found it absolutelly impoible for them to propose terms of a permanent union with out requiring at the same time mutual condecention from the parties

Their great object has ben, to place the two societies on eaqual footing and to do equal justice to both, some objections might be made with propriety against every plan, which they would devise. That which they have adopted is in their opinion liable to the fewest in number and the least in importance. They could not reasonably and did not expect to adopt measures altogether unobjectionable: and that those measures which they have thought proper, after attentively considering the

situation of the town, to recommend, will be found not only to embrace the great

Object of submission to them, but to be carried into effect with propriety prudence and advantage; and their adoption will perpetuate to the present and futer inhabitants of Hampton the inestimable blessings of peace harmony and union. They do therefore recommend to the attentive and candid consideration of the Town, the following Statement. (51)

To the Church and people of the Town of Hampton

Dearly beloved freends:

Your call for me to settle with you
in the gospel ministrey has been deliberately and
prayerfully considered. At once to relieve your minds
I tender to you an affimative answer when I Contemplate
the scene of trials through which you have passed;
when I consider the providence of god so

Conspicuous in your present union when I reflect on (62)
the state of our moral establishments and at the
same time glance a thought to the great day of final
retribution I dare not give a negative.

Being unacquainted with the expences of living in
this region I am unable to judge of the competency
of your appropriations for my support But I rejoice
to say that I am ready to make the experiment
it is with pleasure I affirm my entire willingness
to trust your benevalence for what may be competent

and honourable

But beloved most of all, let me trust and let me not be disappointed in having your prayers for that divine and with out which I can do nothing, and may the God of peace order, grace and all consolation ever dwell among you and grant you every receded blessing which shall ever be the prayer of your very affectionate friend and very humble servant in the work of our Lord Jesus Christ
